# Job Description

## CIMT – Senior Physiotherapist - Band 6

CIMT requires a full time senior neurological physiotherapist to join our team and deliver Constraint Induced Movement Therapy programmes for children and adults in Manchester and Liverpool. This is an exciting and unique opportunity to join a rapidly expanding team of therapists dedicated to providing patient-centred, evidence based treatment that achieves meaningful results.

The role also involves service development, service promotion and assisting with supervising junior therapists. There is also opportunity to take a wider caseload alongside CIMT programmes to maintain wider neurological rehabilitation skills.

We require a physiotherapist that has:

- A passion for evidence-based neurological rehabilitation
- Experience of working with children and adults
- Knowledge of the principles of CIMT
- Creativity, enthusiasm and adaptability to help patients get the most out of their treatment
- A desire to help their patients achieve their maximum potential
- Excellent clinical skills
- Excellent prioritisation, organisational and time management skills.

## Why us?

We provide:

- A competitive salary  
Performance related bonuses paid twice annually
- Pension scheme
- The unique opportunity to deliver intensive therapy interventions in line with the most recent and robust evidence
- The opportunity for progression
- A chance to be part of an innovative therapy service that is rapidly expanding, and have a major role in its growth
- A generous amount of funds provided for external courses
- Regular supervision to help you to continue to develop
- A fantastic working environment
- A chance to make a difference
- The opportunity to develop your career in the direction you want to

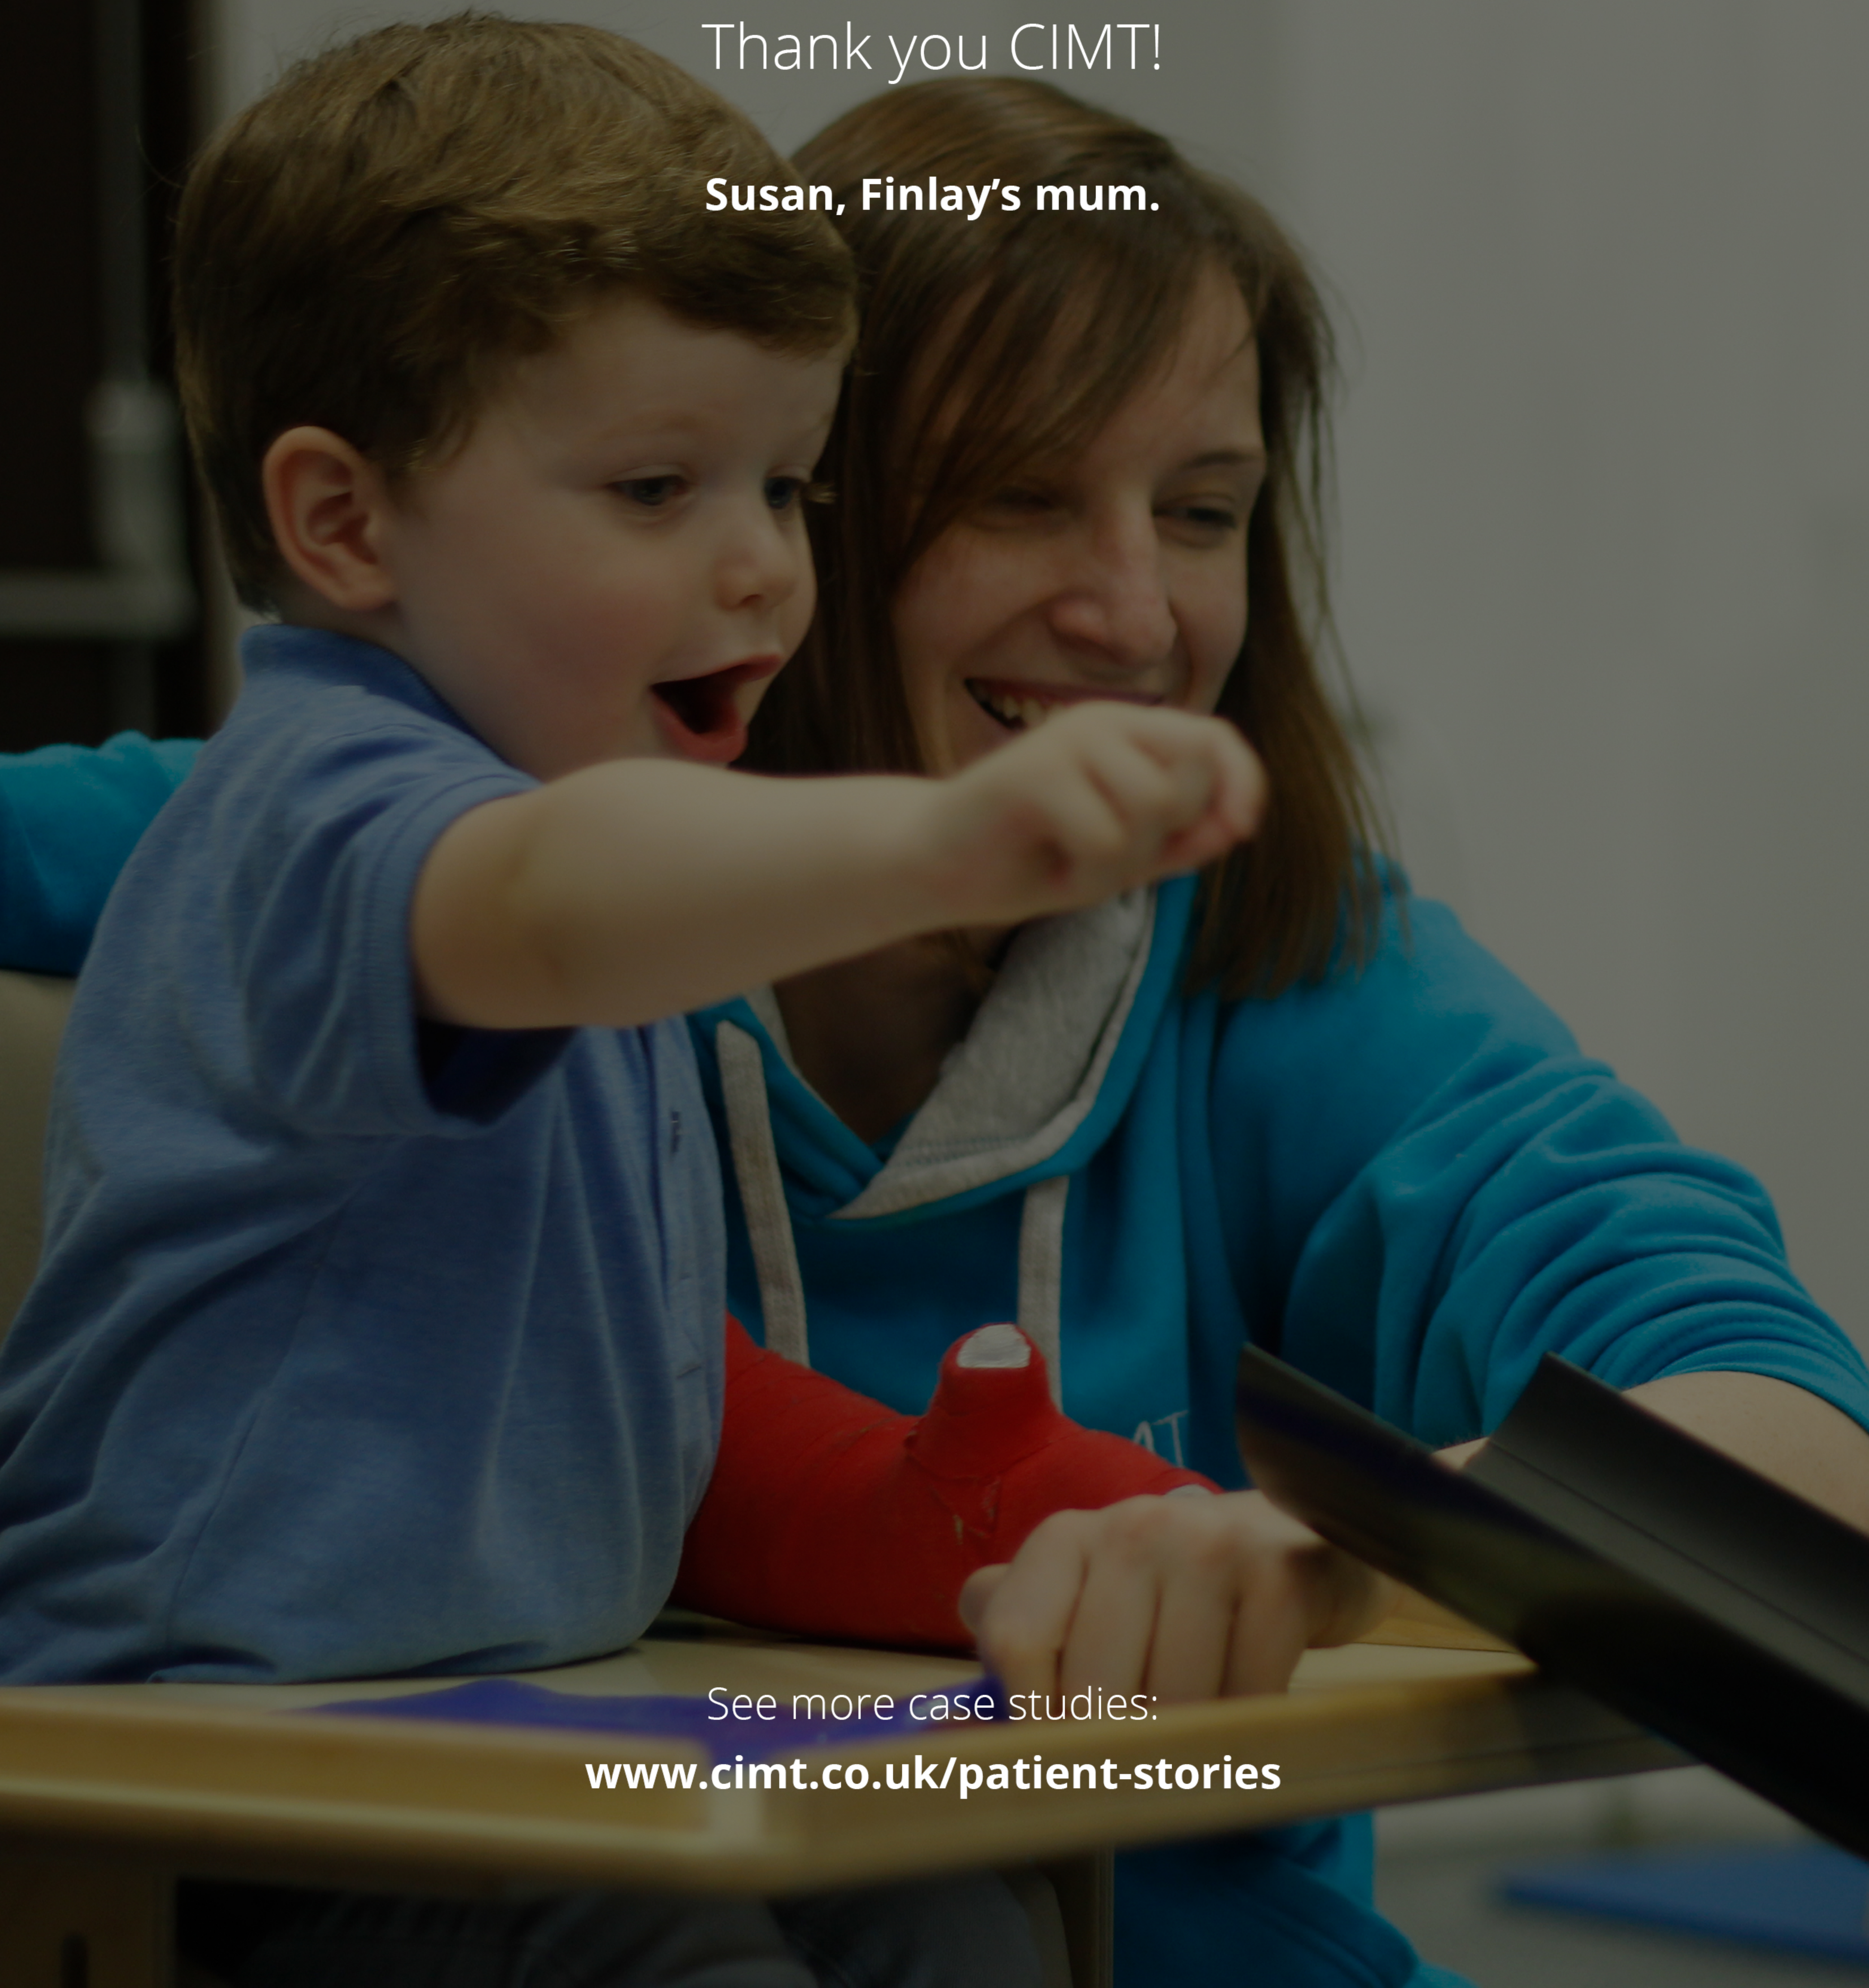

To see him playing so beautifully with both hands together is just incredible.

Thank you CIMT!

**Susan, Finlay's mum.**
